

# Biology Stretch and Challenge

## CENTRE FOR LIFE

The Centre for Life has a hands on session for 13-18 year olds on Light, Energy and Living Things on 28<sup>th</sup> April.

## CITY NATURE CHALLENGE

Discover and watch as much wildlife as possible from the 26<sup>th</sup>-29<sup>th</sup> April - all that is needed is you and your phone!

## NEWCASTLE UNIVERSITY PUBLIC LECTURES

Fickling Lecture on Developments in Children's Literature

**Brain surgery and other stories**

Dr Henry Marsh, neurosurgeon and author

Doctors are both witnesses and participants in the stories of the lives of their patients. The prominent neurosurgeon Henry Marsh will explain what makes for a good medical story when it is addressed to younger readers. This is most suitable for ages 16 and over.

## THE LIFE SCIENTIFIC

Listen to some of these podcasts on the study of animal behaviour. There are talks on topics such as communication in apes and the intelligence of birds.
