

Psychology Stretch and Challenge

FILM: THREE IDENTICAL STRANGERS

Documentary film about triplets separated at birth. This has many interesting suggestions for the nature nurture debate and the ethical use of twin and adoption studies.

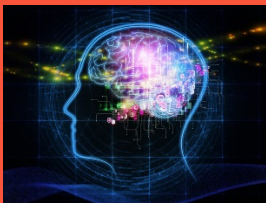

BPS RESEARCH DIGEST

The British
Psychological Society

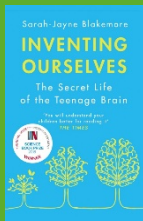

Fascinating and current psychological research updates across all areas of the subject.

MIND READING TECHNOLOGY

This article discusses the recent development of computers which will read thoughts. Can you research further to find how this might be used?

BOOK: INVENTING OURSELVES

Winner of the Royal Society Insight Investment Science Prize 2018. Sarah-Jayne Blakemore explains how your adolescent brain transforms as it develops and shapes the adults we become.

RICHARD WISEMAN: QUIRKOLOGY

Richard Wiseman is a famous cognitive psychologist. His youtube channel is full of tricks of the mind.
